

PRESS RELEASE

FEBRUARY 16th 2007

On February 16th 2007, Demeter Fund and the Spanish venture capital firm Sodena have respectively taken a 24,8% stake in the Spanish company Soluciones y Sistemas Solares S.L. by a capital increase.

Soluciones y Sistemas Solares S.L, based in Valencia, Spain, is a start-up company which activity is the engineering, distribution, installation and maintenance of solar thermal systems using a nationwide sales network.

Created in 2006, Soluciones y Sistemas Solares forecasts for 2007 sales over € 11 M. The company forecasts significant growth in the next years, due to the new construction code « CTE» approved in Spain. This country is the first in the European Union to enforce the installation of solar thermal systems in every new home.

This investment is right in the line with Demeter's European investment strategy in eco-industries, eco-energies and prevention of hazards.
